

DATE: September 16, 2022
TO: Potential Respondents
FROM: Carrie Stoeckert—Senior Construction Contract Coordinator
SUBJECT: Questions #1
RFQ769-23-976CS
Landscape JOC

This document is being issued to answer questions that have been submitted as follows:

1. Item 5 Financial - is it vital to have an audited financial statement to mow grass on a JOC contract? It's pretty expensive to have these done to only be used by one potential client. We've been in business for 30 years and have serviced many large municipalities, governmental, and commercial clients with much higher contract amounts that do not require audited financials. Is this a way to limit the number of companies competing?

ANSWER: Yes, we require an audited financial statement. No, it is not a way to limit companies competing. The scope of services includes more than mowing and the maximum Job Order can be up to \$500K.
