Important Notes to Using & Reviewing Your Results

- **Notes**
  - **Data Population**
    This report is populated with the Pre 9.2 (PS_ Ledger_KK) data and PS_KK_Activity_Log transactions.
  - **Items without a Budgeted Amount**
    All Actuals will print to the report regardless of the corresponding Budget Account possessing a dollar amount or zero entry.
  - **Actualls Posted & Pending**
    Actuals are from approved and posted transactions.
This report is in Cognos version 10 which includes copy and paste feature that was removed in Cognos version 11.

**Locate Report**

1. From the Budget & Planning Reporting Page, locate “Transaction Details”

2. Login to IBM Cognos to run the report.

**Report Setup - Prompt Pages**

All initial Landing Pages for reports on the Cognos System will appear similar in format. You will have a set of filtering choices based on the source’s available data.

**REPORT FOCUS FILTERS / PAGE 1**

1. Select your parameter choices. (Only the Viewing Selection of Zero Values is required).

<table>
<thead>
<tr>
<th><strong>Business Unit</strong></th>
<th>Default will pull “All Units” or you may use the Dropdown to select one particular unit by which to filter the report.</th>
</tr>
</thead>
</table>
| **Department Manager** | You can Search by either the DeptID, Dept Descriptions or if you know the manager, you may type here and search. For further search features, click the Options Link to expand additional search methods. Your results appear in the left box. Highlight any or all results and click the Insert Button to include as your filter choice here.  
*Notes: CTRL + Click to choose more than one.  
If you need to view several departments and have a numbered list, you can use the department selection on the Detailed Filters/Page 2 below. |
You can select a department tree option that meets your needs.

You can Search by either the Project ID, Project Descriptions or if you know the manager, you may type here and search. For further search features, click the Options Link to expand additional search methods. Your results appear in the left box Highlight any or all results and click the Insert Button to include as your filter choice here.

*Notes: CTRL + Click to choose more than one.

If you need to view several departments and have a numbered list, you can use the department selection on the Detailed Filters/Page 2 below.

Default is set to pull both account types. You do not need to click “Select All” to do so. Otherwise, choose to limit the report results to Revenue or Expense by unchecking the appropriate box not needed.

Default for this report is set to Budgetary, Non-Budgetary, Non-Sponsored Projects and Sponsored Projects. Otherwise, choose to limit your selection by unchecking the appropriate boxes not needed to focus and limit viewing results.

If you know a particular Ledger you would like to filter by, enter here.

Selecting none will give you all available periods. Otherwise, use the Check Box to select individual periods.

This will allow data retrieval thru a particular period entered.

The Dropdown allows for filtering by a single Amount Type.

The Zero Values Dropdown will limit the view to only displaying items where the net of you above filtered selections equal zero.

The Detail Level Dropdown will display the final output in either an abbreviated version, or in the full version including descriptor fields and additional information about the lines.

The Sort Order Dropdown controls the overall view output. This can be changed again once within the report.
2. If you are satisfied with your choices and do not need to engage Detailed Filters, click the Finish Button. Otherwise, to run by other FoaPs elements, click the Next Button.

DETAILED FILTERS – CHARTSTRING INCLUSIONS / PAGE 2

3. Select your parameter choices.

Remember that prompts filter your data. By entering values into the prompts you narrow the result sets. Start off by casting a wide net by only using one prompt. You can always rerun the report with additional prompt to narrow the results as needed.

Report Results

Report Results

REPORT FEATURES

1. Results are grouped only by Business Unit.
2. Views:
   - In the Detailed View, the Transaction Details will list out with the corresponding Chartstring Descriptions and Employee Email where applicable. The Condensed View drops the extra fields for a focused view of strings and pertinent information associated with the string.
3. The Viewing Dropdowns at the top will automatically repopulate the report.
DRILL-THROUGH OPTIONS

4. Clicking on Journal IDs that are underlined will drill directly through to the “Payroll Transaction Detail”.
   a. *note 1: This is drilling to a report that resides on the old Blackboard Data System.
   b. *note 2: From the Payroll Transaction Detail report, there are further drill downs by the Employee ID.

5. Clicking on any of the underlined IDs within the Requisition / Purchase Order / Voucher will drill to the “ePro Transaction Detail” to view the detailed transactional line(s) that makes up the chosen amount.

Cognos Report Functionalities

LAYOUT OVERVIEW

6. Report results are typically displayed in an interactive HTML on screen style.
   Based on your selections, if any, the report will only display results that match your initial filtering choices.

7. Reports on screen may combine the Level Number result with the Description for that level in one single column. (Report results exported to XLS will break these out, see the Export XLS directions below.)

8. If there is an error in your request or no results can be produced, you get a return message showing the parameters you chose that produced these results. (See the Error Results section below for more information or to troubleshoot.)
9. Use the "Page Down" Link at the bottom left to see additional pages (if any).

10. Use the “Bottom” Link to skip to the last page of Applied Parameters where you can review what your filtering choices were on the initial Prompt Page selections. Use the “Top” Link then to return to your first page.

**IN REPORT FILTERING & CONTROLS**

- You can clear any originally selected Filters by returning to the Prompt Pages from within the Report you are currently viewing (without starting over). To do so, click on the “Run as” button on the upper left hand of the toolbar of your screen.

**Exporting Your Report Results**

**Email Report Directly**

Click the “Share” symbol dropdown (next to the bell) on the upper right hand of the toolbar on your screen to select “Email”. Fill in the desired email address, any additional information, and your onscreen results will be emailed from within the Cognos program.

**Run Report and Download Options**

Click the “Run as” button (white circle) on the upper left hand of the toolbar on your screen to see selections for running or exporting your results:
Error Results

Run Report Error

An example of the standard results message when Cognos cannot determine a match for your requested filters is:

```
No data available for the parameters chosen, please review the parameters below:
Fund Cat: 876
```

The selection you have made on the prompt page is listed automatically below the “No Data” message. Again, to re-run the report with a different selection, click the “Run as” button on the upper left hand of the toolbar on your screen.

Drill-Through Message or Error

The message below will be displayed when a zero amount without supporting details is clicked on during a drill through. The same message will be displayed when a drill through has error. If that happens, the statement below, “The amount you clicked was,” will match the amount clicked on the report.
