Important Notes to Using & Reviewing Your Results

- **Notes**
 - **Data Population**
This report is populated with data from the Budget and Finance for Cognos 11 package.
 - **Items without a Budgeted Amount**
All Actuals will print to the report regardless of the corresponding Budget Account possessing a dollar amount or zero entry.
 - **Actuals**
Actuals are from approved and posted transactions.

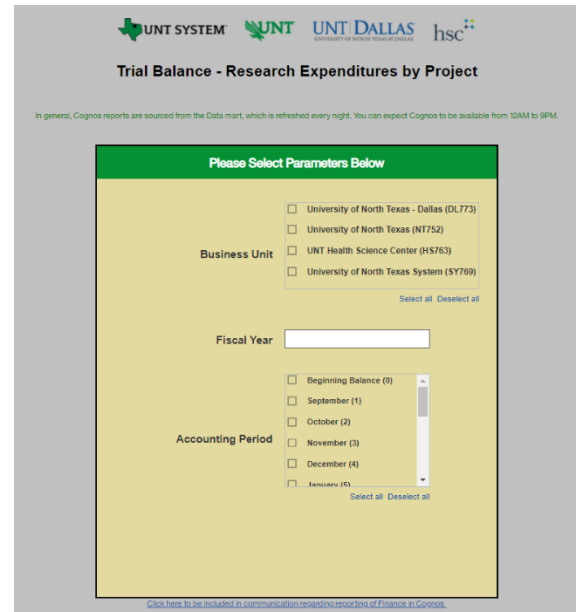

Locate Report

1. From the Budget & Planning [Reporting Page](#), locate “[Trial Balance – Research Expenditures by Project](#)” report
2. **Login** to IBM Cognos to run the report.

Report Setup- Prompt Pages

Report Setup - Prompt Pages

All initial **Landing Pages** for reports on the Cognos System will appear similar in format. You will have a set of filtering choices based on the source’s available data.

1. Select your parameter choices.
(Select Report to Run parameter within this report is required).

<i>Business Unit</i>	Default will pull “All Business Units” or you may select one or multiple units by which to filter the report. You can click Select All to select all choices.
<i>Fiscal Year</i>	The budget year automatically fills with the current operating year and you may override if you prefer by typing in the box.
<i>Accounting Period</i>	This will allow data retrieval thru a particular period entered. You may select one or multiple account periods by which to filter the report. You can click Select All to select all choices

2. If you are satisfied with your choices, click the **Finish Button**.

Cognos Report Functionalities

LAYOUT OVERVIEW

- Report results are typically displayed in an interactive HTML on screen style.
- Based on your selections, if any, the report will only display results that match your initial filtering choices.
- Reports on screen may combine the Level Number result with the Description for that level in one single column. (Report results exported to XLS will break these out, see [Run Report and Down Load section](#) below.)
- If there is an error in your request or no results can be produced, you get a return message showing the parameters you chose that produced these results. (See the [Error Results section](#) below for more information or to troubleshoot.)
