

Getting started with the Concur app

Registration using Single Sign-On

Clients can use Single Sign-on for mobile login. By using SSO, users can log in to the mobile device using their regular, EUID login and password instead of having a separate one for the mobile device.

HIGHLY RECOMMENDED: Update your profile settings in the desktop application and verify your email address within your profile settings prior to logging into the app. Information on updating your profile settings can be found at untsystem.edu/concurtravel

Sign-in for mobile devices

- 1 Open the Concur app.
- 2 Enter **SSO Company Code "JJRPN"**. Tap **Next**.
- 3 On **Company Sign On** screen, enter your UNT System EUID and password. Tap **Sign In**.
**Use the same login credentials you use for your MyUNT portal.*
