HUB Risk Management Information System (RMIS)

HUB International has created an innovative risk management information system (RMIS) designed to help automate many processes and provide deeper analysis into the performance of your risk management program. With an easy-to-use interface, array of tools and cutting-edge technology, the HUB RMIS is highly customizable to a client's unique needs, providing effective claims administration, audit, safety and compliance. Utilizing analytics and benchmarking to support decision-making around key risk management processes such as risk identification and assessment, risk financing and control, and claims management, the RMIS will become your true risk partner.
